

KEYFIELDS
surpassing excellence

Affirmative Testimonials by our clients

Mr. CY Wong,
Executive Director of PFSAP
Panasonic Factory Solutions
Asia Pacific

“Our partnership with KEYfields had proven to be the right choice for us as they have the ability to understand our requirements at different levels and deliver a solution that exceeds our expectation.”

Mr. Jimmy Chua,
Managing Director
Huatiang Inland Transport

“With the authority tightening the inflow of foreign workers, the business landscape has changed in the transport business. In order to compete efficiently and effectively and to stay ahead in this industry, Huatiang invests in technologies to streamline its operations and to cut down on the reliance on people in order to compete efficiently in the next level. After evaluating a few TMS solutions, we selected KEYfields because of their consultants’ domain knowledge in this business and iTMS is operationally practical which is important for our operations people to accept the system.”

Mr. Tan Kaa Seng,
Managing Director
Spiral Marine

“iLOGON (comprises of iTMS and iWMS) is selected because it has a huge installation base in similar industry which has been tested and proven. This is important as we want a software company that understands this industry to adopt the best practices to improve our business processes. The full integrated solutions with iTMS, iWMS and ONE Accounting from the same vendor, KEYfields, is also an important consideration as we do not have to work and coordinate with multiple parties and build interfaces.”

Mr. Matsuoka.K,
Managing Director
Senko International Logistics

“We have evaluated a few WMS solutions both international and local players. We invited our main customer to participate in our WMS evaluations and selections. Both our internal key managers and customer’s representatives are impressed with KEYfields iWMS functions such as shipping documents generations, flexible billing functionalities and experience in the setup of interface with SAP. One important consideration is, iWMS is configurable and no customizations needed to meet our requirements. Without doubts, we selected KEYfields as our preferred partner to implement iWMS in our warehouse.”

Mr. Pay Sim Tee,
Executive Director
Peck Tiong Choon

“We have very bad experiences with some of our previous IT projects that did not take off. We are happy KEYfields’ has changed our perceptions with a proven and a successful implementation. We realised the key ingredients for a successful IT project rollout require good consultants, users buy in, active management’s participation and more importantly a good working partnership between the partners i.e. PTC and KEYfields.”

Ms. Marina Neo,
Managing Director
GKE Warehousing and Logistics

“Due to expansion and diversification into new warehousing businesses, we need a system not only able to manage our current warehousing activities but the new licensed warehouse business. In line with our eco-friendly facilities operations, we are looking for a solution that support ‘Green’”
